

Fredag 6.mai		
12:00 - 13:30	Ankomst + Lunsj	
13:30	Velkommen <i>v/ NSFTs leder Mohammad Nouri Sharikabad; FHI Plenumsalen</i>	
Keynote lecture (BCPT sponsored)		
14:00 - 14:45	Drug availability and innovation in Norway <i>Sayeh Ahrabi; SLV</i>	
14:45 - 15:00	Pause +/-Kaffe ?	
	Current trends in Nanotoxicity	Osteoporosis
15:00	Nanotoxicology: achievements, current and future challenges. <i>Shan Zienolddiny; STAMI</i>	Title TBA TBA
15:25 - 15:50	Nanotoxicology: status, challenges and needs - an environmental perspective. <i>Anastasia Georgantzopoulou; NIVA</i>	Drugs and new pharmacological targets in the treatment of osteoporosis <i>Ngoc Nguyen Lunde; UiO</i>
15:50 - 16:20	Pause +/-Kaffe ?	
Frie foredrag I		
16:30 - 18:00	Toksikologi	Farmakologi
16:30 - 17:00	Pause +/-Kaffe ?	
15:30 - 18:00	Toksikologi forts.	Farmakologi forts.
19:00	Samling i baren ??	
19:30	Middag	

Lørdag 7.mai	
07:30 - 09:00	Frokost
Fellessesjon Poulsen Prize 2020 - Plenumsalen	
09:00 - 10:15	Pure serendipity: a clinically relevant drug-drug interaction in organ transplantation <i>Teun van Gelder; Universiteit Leiden, The Netherlands</i>
10:15 - 11:00	Pause +/-Kaffe ?
Fellessesjon --- Mikrobiota	
11:00 - 11:45	Title TBA <i>Anna-Maria Hoffmann-Vold; OUS</i>
11:45 - 12:30	TBA TBA
12:30 - 14:00	Lunsj
Priser for årets beste artikler 2020 og 2021 Fellessymposium Møteleder: Jason Matthews; UiO/TBA Plenumsalen (BCPT sponsored)	
14:00 - 14:20	Årets artikkel 2021 farmakologi: <i>Jenny Lund og Solveig Krapf; Farmasøytisk inst, UiO</i> ; SENP2 is vital for optimal insulin signaling and insulin-stimulated glycogen synthesis in human skeletal muscle cells
14:20 - 14:40	Årets artikkel 2021 toksikologi: <i>Libe Aranguren-Abadía; Inst for biovitenskap, UiB</i> ; Photo-enhanced toxicity of crude oil on early developmental stages of Atlantic cod (Gadus morhua)
Pause/Kaffe	Pause +/-Kaffe ?
Frie foredrag II	

Søndag 8.mai		
07:30 - 09:00	Frokost	
Nordic symposium The aryl hydrocarbon receptor – from toxicity to a novel therapeutic target for human diseases (BCPT sponsored) - Plenumsalen		
09:00 - 09:35	Targeting Aryl Hydrocarbon Receptor for Cancer Treatment and Improved Immunotherapy. <i>Jason Matthews; UiO</i>	
09:45 - 10:30	Detrimental vs. beneficial functions of the AHR in intestinal homeostasis - a critical role of CYP1 enzymes in regulating AHR physiology and toxicity. <i>Emma Wincent; Karolinska Institutet</i>	
10:30 - 11:00	Pause +/-Kaffe ?	
	Using fish as models for identifying toxic drivers and mechanisms of toxicity; results from 3 interconnected projects	Heart failure
11:00 - 11:25	Toxicological characterization of produced water compounds using fish embryos <i>Bjørn Henrik Hansen; SINTEF</i>	Title TBA TBA
11:25 - 11:50	Understanding the downstream effects of oil induced cardiotoxicity <i>Elin Sørhus; Havforskningsinstituttet</i>	Title TBA <i>Kaspar Broch; OUS</i>
11:50 - 12:15	Atlantic cod receptor-based reporter bioassays for assessing environmental toxicity of sediments, effluents and chemicals - outcomes from the dCod project. <i>Anders Goksøyr; UiB</i>	
12:15	Avslutning <i>v/ NSFTs leder Mohammad Nouri Sharikabad (FHI) Plenumsalen</i>	
12:30 - 13:30	Lunsj + Avreise	

15:10 - 16:00	Toksikologi	Farmakologi
Postervisning		
16:00 - 18:00	Toksikologi	Farmakologi
19:30	Middag	
21:30	Kveldsnytt --- ???
